### Milk Production

Idaho milk production during June 2013 totaled 1.15 billion pounds, unchanged from the same month last year, but down 2.0 percent from May 2013, according to the National Agricultural Statistics Service. May 2013 milk production was revised to 1.18 billion pounds, up 2 million pounds from the preliminary estimate.

Milk production in the 23 major States during June totaled 15.8 billion pounds, up 1.6 percent from June 2012. May revised production at 16.6 billion pounds, was up 1.1 percent from May 2012. The May revision represented an increase of 47 million pounds or 0.3 percent from last month's preliminary production estimate.

#### Special Note:

Due to sequestration, administrative data will be used for all releases of this report through the end of the fiscal year on September 30, 2013. Releases will contain milk production data only. No information on the number of cows or milk per cow will be released. Please check the NASS website at [www.nass.usda.gov](http://www.nass.usda.gov) for any future updates on NASS programs.
